P. P. MAUA & Co.,
Dec. 1, 1861. WILLIAM LESLIE.

MAUA BANK,
CALLE CANGALLO, Nos 101—103

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a m till 4 p.m.

P.P. MAUA & Co.
WILLIAM LESLIE.

Propositions for Life Assurances are received, and immediate attention paid to the same. A Prospectus of rates and other particulars will be furnished on application to the Company's Agent in this City,

GEORGE WILKS,
7 Calle Mayo.

Royal Insurance Company.
FIRE AND LIFE.
CAPITAL TWO MILLIONS STERLING.

This important company, in many respects the greatest of its kind in the present age, has appointed an agency in this city. The head-offices are in London and Liverpool with branches in Dublin, Edinburgh, Glasgow, Manchester, Bristol, Birmingham, Sheffield, Leeds, Newcastle, Southampton, Montreal, Toronto and other cities.

The ROYAL is remarkable; for the promptitude and liberality of its settlements: for the largest life bonuses (£2 per cent per annum) ever continuously declared during 15 years by any Co.; for the enormous extent of its' transactions, shewing £'00,000 in new life assurances for 1862, and a Fire revenue of £300,000 per annum; for its security, which has given rise to the proverb "as safe as the Royal;" for the accumulated funds in hand, over one million sterling; for its annual income, over half-a-million sterling; and for the correct calculation of its mortality tables. Hence the English press of all countries, including over 95 leading papers, speaks in the highest terms of this company.

The report for 1863 shews that all the property of the Co. amounting to £846,070 is real and substantial property:" the amount now exceeds one million sterling. The increase, during 14 years, on Fire business was 900 per cent, and on Life 1350 per cent.

MESSRS. H. A. GREEN AND Co. are authorised to issue policies for Fire and Life to a very large amount, at moderate premiums, the Co. being anxious to extend its foreign business, which already shews an annual revenue of £200,000. Life claims can be settled without reference to England. For further particulars please apply to

THURSDAY, DECEMBER 22, 1864.

EDITOR'S TABLE.

The public was disappointed yesterday, no steamer arriving from Montevideo, although the Rio del Plata and Uruguay were both expected. Severe weather has probably been the cause of the delay, and to-day will probably bring us news.

The Pavon brought mails from Paraná, Rosario and Salta: the agitation in the interior seems on the increase, owing to the neglected state of the frontier, and occupation of the National Government in Oriental, Brazilian and Paraguayan affairs.

We read a menacing and dangerous article in yesterday's "Tribuna," stirring up the public mind to embark in interminable wars, under pretext of being prepared for a foreign foe, when none appears. This article, if published in English, and reproduced in London, would cause River Plate securities to fall sensibly, but, we understand that D. Hector Varela does not speak President Mitre's sentiments.

To-day is the longest day in these countries, and lasts 14 hours, 20 minutes, being much shorter than the longest day in England.

To-morrow will be the anniversary of the first Argentine Constitution (1826) under Rivadavia, which was unfortunately short-lived: by it the capital was fixed at Buenos Ayres, federalizing a radius of territory as far as Puente Marquez.

The juvenile opera company gives a grand performance to-morrow night at Colon, for the benefit of the chief ballet dancer, Mdlle. Fiori.

The duties will be taken off printing-paper from the 1st of January: we notice over 500 bales recently imported, which will not be despatched till next year, and then the price of paper will fall 15 per cent.

To-night the French theatre gives a benefit for the French Hospital, and the Victoria a second performance in aid of the Retiro victims. We have heard several persons complain that the subscriptions for the Retiro and Bombay sufferers are ill-timed generosity, as there are only two families to be relieved by the first, and the British Government should answer for the second. We may remark that there are several wounded survivors of the Retiro in need of relief, besides the two widows; and the argument of the Bombay might have been also applied to the Crimean Relief Fund, but was rightly over-ruled.

The 'Imparcial Español' contradicts a statement in its columns of the 15th instant, to the effect that Admiral MacMahon's fleet had arrived at Valparaiso, and that a bloody sea-fight had taken place between Pinzon and the Peruvians, in which the latter got 'whipped.' We will, therefore, wait for this probable news till next mail.

We perceive that Mr. Champion has opened a new hotel at Belgrano, but our English friends uniformly patronise Mr. Deacon and his mock-turtle soup.

The Italian steamer, Buenos Ayres, arrived in port from Genoa on Tuesday: she made a long passage, 71 days, and brought 232 immigrants. This is her second trip to the River Plate. The Aeron Vole and George Krele arrived same day from Cardiff, with materials for the Central Argentine Railway.

A very complimentary letter of thanks has been directed by the owners and passengers of the Estrella del Norte to M. Lacasse of San Pedro, for his generous services in getting off that steamer when aground. The conduct of the Frenchman is a noble contrast to the extortion and chicanery of the natives of that town. It is rumored th[illegible] Inauguration of the Tigre Railroad will be celebrated on board the Estrella del Norte with a grand *dejeuner*.

The city press devotes some well-deserved eulogies to the late Mr. Augustus Hornung, who for several years belonged to the editorial corps of Buenos Ayres, and died on the 19th inst. He was of German parentage, and related to some of our leading merchants. Consumption cut him off in the prime of life.

The 'River Plate Magazine' has reduced its subscription to $15 per month, which augurs an increase of popularity on the commencement of its second year.

The police-office is now very busy, drunkenness and disorder being much on the increase. We read that an Englishman, supposed to be crazy, has also been arrested.

The Greek priest informs us that he is intimately acquainted with Abd-el-Kader, and that but for the ex-emir's efforts all the Christians of Damascus must have been murdered by the barbarous Turkish soldiers and Druses. Padre Bookoch will say mass every Sunday morning at 10 o'clock at the Merced church.

To-morrow will be sold in the Plaza Mayo, by Mr. Billinghurst, a troop of 9 splendid horses, just received from the camp. The auction will come off at half-past five in the afternoon.

The 'Rosario' mentions the arrival of D. Patricio Cullen at Paraná, *en route* for Santa Fé, where he will re-assume command of the province: Dr. Granel, who accompanies him, will be named Minister of Government.

The examinations at St. Patrick's College, San Jose de Flores came off yesterday with great *eclat*; owing to the late hour at which we received the report of the proceedings, we are unavoidably obliged to hold it over until to-morrow.

We regret to inform our readers that a well-known shopkeeper of Giles, Mr. Picheto, was attacked in the camp, tied down, and robbed. The perpetrator of this outrage has not been apprehended, and it has caused great alarm amongst the peaceful residents of San Andres de Giles.

Two more camp fires are reported to us, but the rain on Tuesday *night* we believe and hope has extinguished them. The fire in the partido of Luxan was in the direction of Zamudio's, and that in Pilar to the north of the town: no damage has resulted however.

The Plaza Once de Setiembre is literally crammed with wool. In the South Plaza there are not so many carts, but the fall in specie, the scarcity of paper money, and the heavy arrivals tend to depress the market. The majority of the farmers are depositing, being determined not to accede to the pretensions of the buyers.

The Irish estancieros and sheepfarmers in the partido of San Antonio de Areco have munificently subscribed and purchased a magnificent house for the Irish Curate of that parish. We cannot too highly praise this act, as it speaks for the character and liberality of the parishioners.

The weather could not be more favorable for the farmers. On Wednesday we had a couple of very heavy showers, and the weather is still threatening.

The Ranger could not get off on Tuesday morning, but left in the night for Asuncion and Matto Grosso. We bid our friend, Captain Harrison, adieu, and hope he will soon return.

It was currently reported yesterday that President Mitre had decided to organise an army of observation, about five thousand men, the command of which was to be entrusted to General Urquiza. We have very serious doubts as to the latter part of the story, yet after all it might prove one of the boldest and best strokes for the National Government. We give the report for what it is worth.

Mr. Rom, of the Bolsa, has at last closed his subscription list for the Retiro sufferers. The total amount subscribed is twelve thousand dollars, of which eight thousand dollars has been collected.

Nothing is more extraordinary than the great difference between the prices of wool in the North and South Plazas. In the former all wool goes into deposit, whilst four cartloads were sold in the South Plaza on Tuesday at one hundred dollars per arrobe.

THE NEW CRUSADE

All political writers in Buenos Ayres seem to be seized with a zealous desire to upset the Government of Paraguay, and impart to the people of that country the blessings of republican liberty. This excessive generosity on the part of Buenos Ayreans will, however, be appreciated neither in Paraguay nor elsewhere.

It is perfectly beside the question, whether the Government of Asuncion be strictly republican, or absolute and despotic. It matters little whether the Paraguayans talk Spanish or Guarani, or enjoy the right to break each other's head at elections, or not. But it is the excess of folly to meddle in our neighbor's affairs, so long as he does not molest us, and when we are confessedly unable to keep our own house in order.

"Non omnia omnibus" is a sage proverb, and as the Government of President Lopez would not suit Englishmen or Argentines, so is it no less true, that Argentine institutions would be most injurious to Paraguay. The people of that country have a most implacable detestation of everything Argentine, since the time (1811) that General Belgrano attempted to emancipate or annex Paraguay, an attempt crowned with utter failure and complete disaster.

But most likely the new crusade is intended rather to conquer, than liberate, the country of Pres. Lopez, and this is still more absurd and unjustifiable; for while we are unable to check the Indians in the heart of this Republic, we should find it much more difficult to subjugate a military nation highly disciplined and more populous than the Argentine Confederation.

Neither is there the shadow of pretext for declaring war against a Government that has patiently submitted to the grossest insults from Argentine writers, and in return permitted Argentine steamers to refit gratis in its arsenal at Asunçion.

President Lopez can point to several friendly offices lent us, such as saving Buenos Ayres, after the defeat of Cepeda, from a dangerous siege or possibly worse calamities. He has given cotton-seed gratis to Argentine rulers for the encouragement of industry. He has, at the expense of Paraguay, carried on the steam-service of our rivers. He has never uttered an unkind word or done an unkind act to Buenos Ayres, and the antipathy entertained towards him and Paraguay is most unnatural.

It is, however, to be hoped that all this hub-bub will share the fate of the agitation about the Chincha islands, which died out after a few brilliant meetings and is now forgotten. Paraguay does not want to make war with Buenos Ayres, but push forward her own multiplied elements of material progress. President Mitre does not want to make war about an idea, but will let the ardor of our belicose colleagues evaporate in words.

Meantime, the paladins of Liberty might find useful occupation in freeing the slaves in Brazil, reviving the struggle for Polish independence, or joining the Fenian brotherhood to inflict on Ireland the advantage of *Republican* freedom.

Joking aside——when will Argentines learn to mind their own affairs, which are in a wretched condition, and leave off the South American amusement of setting fire to their neighbor's house!

BLOCKADE OF MONTEVIDEO.

Defeat seems to increase Brazilian arrogance, and now after the valiant exploits of the large fleet of imperial gunboats which have *not* succeeded in capturing the little village of Paysandú, we hear it currently rumored that Admiral Baron Tamandáre intends to fly at nobler game, and send down two gunboats to blockade (perhaps even to bombard) the city of Montevideo.

Public patience is now fully exhausted, and natives and foreigners ask with indignation—how long will these Brazilians be allowed to keep the River Plate to themselves? Of course the Argentine Republic is wholly unable to offer any resistance to the imperial gunboats, as Admiral Brown and his days are gone by. But it is not just that the foreign powers look on as impassive spectators at the ruin and destruction committed, without any declaration of war. We trust, however, that European ideas will find practical support in the civilizing influence of English, French and Spanish war-vessels, whose flags will be not only an asylum, but a security against unjust aggression.

Of what value are the boasted prerogatives of English citizenship, if the merchants of Montevideo are left a prey to the capricious designs of a troublesome neighbor? The interference of Brazil is generally believed to be only a pretext for the ulterior plans of that country. We are of opinion that Montevideo would be a gainer by annexation to Brazil, as any sound, firm government is better than these eternal revolutionary changes. But this would be a fatal blow to Buenos Ayres and constant cause of war in the River Plate: the only peaceful solution would be the annexation of the Argentine Confederacy also to Brazil, a contingency not even dreamed of in Buenos Ayres. For the next hundred years it is therefore better to accept the scheme of preserving the equilibrium of the River Plate, and in this the cabinets of Chile, Washington and Paraguay adhere to our view. The only safe conclusion to the *imbroglio*, would be to sweep the Brazilian fleet and army from these countries, a task that can only be confided to the European powers.

If the Brazilians presume to blockade Montevideo, there is no reason why they should not bombard that city. As soon as the first shells fly over the roofs of some Italian residents, we may expect the officer of Victor Emmanuel to "emerge from the chrysalis," (as President Lopez says) and declare an Italian protectorate of the Montevidean Government. Then arises a new complication, more embarrassing to all parties, and the issue of which looks very like an Italian colony in the River Plate and a foothold of European domination in the South American continent.

But let us leave the region of speculation, and turn to a source where events are following in quick and momentous succession. The Government of Paraguay has seized the Brazilian steamer, placed His Excellency of Matto Grosso in close arrest, and invaded that province of the Empire. By liberating the slaves, President Lopez may count on permanently annexing Matto Grosso to Paraguay, and he will then try the same game with Rio Grande. Before the maturity of such enterprises, it would be expedient for Admiral Tamandáre, with his nineteen gunboats, to attempt to pass Humaytá. Surely, the poor President of Matto Grosso is worth an effort to liberate him, and that province must be resigned without a blow to the conqueror, if the forts of Humaytá inspire such terror into Dom Pedro's naval forces.

The chances are that any attempt to go up the River Paraguay must prove a failure, but it is at least necessary for the honor of the Brazilian flag not to give in, without an effort. So much bravery, so many shells, so much blood and treasure uselessly wasted in a vain attempt to take Paysandú, had better have been expended before Humaytá.

The new crusade being preached against Paraguay, it is fit that Brazil should take the initiative and deserve the benediction of the Chilian prophet, Bilbao. Those who embark in the labor of love will soon have an opportunity of testing the power of the American Saladin, and appreciating the manner in which Paraguayan patriots will receive their spontaneous "liberators"—at the bayonet's point.

DESCRIPTION OF MATTO GROSSO.

Matto Groso, or Mato Grosso, a province of Brazil, lying between lat. 7 and 24 S., long. 50 and 62 W., and bounded on the north by the provinces of Paras, and Alto Amazonas; on the east by that of Goraz; on the south by that of Paraha; and on the west by Bolivia: area estimated at 426,200 square miles. Of this extensive country little is known with accuracy, for it has been but little visited by Europeans, being covered to a great extent with dense forests from which the province derives its name. It is traversed by several ridges of mountains, but these are of no great elevation. Great part of the surface is occupied by undulating table lands. The principal mountain ridge runs from east to west, and afterwards north-west, separating the waters that flow into the La Plata from those which go to swell the giant stream of the Amazon. This chain is known by different names in different places, being called the Sierra de los Vertienses on the east, and the Parexis, or Parisis, on the west or north-west, while the whole bears the name of Cordillera Geral. Besides this, there are numerous branches from the central ridge in both directions, many of which have no distinctive names.

The table-land on the north, which is called Canipos dos Parisis, is barren, and uninhabited by Europeans, while that of the Parana to the south possesses large pastures. The principal rivers of the province are:—The Aladeria and its tributaries, the Guapore, the Juoneuna, the Chinqua, and the Araguaia, flowing to the north, and joining the Amazon and the Tocaritiris; and, flowing to the south, the Paraguay and the Cuiba. In many parts of the province gold and diamonds have been found, a circumstance wheih has induced the formation of settlements and mines, but these are now comparatively unproductive and little cared for. Besides these, various other gems and minorals are found in different parts. Rock-salt and saltpetre are found, but they are not worked to any great extent; and although rich iron exists in great abundance, yet this metal has not attracted so much attention as the gold and precious stones, and is allowed to lie neglected.

In many of the valleys the soil is very rich and fertile, producing rice, millet, cotton, sugar, tobacco, etc., but comparatively little of the district is cultivated, owing to the thinness of the population. The natural productions of the country consist of timber of many different kinds, some of which are used for ornamental purposes, and gums, balsams, cacao, jalapa, etc. Among the fauna of this country the principal are pumas, jaguars, deer, hares, etc. The climate is hot and tropical, and the rainy season extends from April to September, during which time the rivers overflow their banks, and fertilize the low-lying country in the neighborhood. The inhabitants are chiefly native Indians, and they are for the most part employed in hunting and pastoral employments.

The commerce of the province is very small, and cannot be expected to make much progress as long as there are not better means of communication than at present exist. Matto Grosso is divided into two comarcas, Cuyaba and Matto Grosso. It sends two members to the legislature of Brazil, one to the Senate, and one to the Chamber of Deputies, and it is governed by a provincial assembly of twenty members. The capital is Cuiaba, which, though a mere village, is the residence of an archbishop. The town of Matto Grosso, which was formerly called Villa Bella, is situated in midst of wide plains on the Guapore; and consists of low wooden tiled houses, which are arranged with considerable regularity. It contains churches and other public buildings, and has a population of 15,000. In the vicinity there are several mines. Population of the province 180,000.—*Encyclopedia Britanica*

COMMUNICATION STOPPED BETWEEN ROSARIO AND MENDOZA.

What will the 'Nacion Argentina' say to such glorious news?

What will Minister Gelly reply?

What is become of the battalions supposed to protect the frontier, "better than at any former period"?

Where are the imaginary soldiers of the official organ, that they have not heard the yells of the Indians as they swept off the remains of princely fortunes in live stock?

The post-houses of Arboles, Chucuy and Tambito, on the road from Rosario to Mendoza, have been sacked, and the diligences unable to continue running have returned to Mendoza.

It is impossible to describe the sensation caused through the province by this state of things. If some check be not put to the stolid neglect of the Minister of War, the provinces will be driven to an extremity and the results must be fatal. This is not the opinion of a faction, but the voice of the entire people.

General Gelly! whither are you rushing? Do you content yourself with the false and dishonest flatteries of "Nacion Argentina" whose writers close their ears to the wretched cries of suffering victims? Minister Gelly and General Paunero have, caused to be published a million of lies, to deceive the people of Buenos Ayres. This is all they care for, to stifle the groans of the provinces in a cloud of rhetoric.

But these groans will not be drowned, and will soon become a terrible accusation to Government. Ye cannot throw a cloak over the sea of innocent blood, which you have permitted the barbarians to shed on our highways, and this same blood will prove your destruction.—*Eco de Cordaba.*

NEWS FROM PAYSANDU.

RETREAT OF THE BESIEGERS.

DECISIVE BATTLE IMMINENT.

The Era came in yesterday at 2 p.m. On Tuesday morning after a fierce guerilla fight, Flores and the Brazilians raised the siege of Paysandú: the imperial marines returned on board the gunboats, and the infantry, 800 strong, joined Flores's army, calculated at 3000, to go in search of General Saá who was within 10 leagues of Paysandú, at Yañiz near the Arroyo Negro. The allies had 9 pieces of artillery, the Government troops none, and Saá's force was set down at 2600 men.

On Tuesday evening, a Brazilian division of 3,000 men was said to have arrived within four leagues of Paysandú, and likely to join Flores next day, who had despatched Acosta and Maximis Perez with a cavalry force to skirmish with Saá. Leandro Gomez attempted to pursue the allies when they retired from the town, but the gunboat Belmonte opened fire on the garrison and forced them to return to their barricades.

General Saá crossed the Rio Negro at Itapebi, on Saturday, 17th instant. Flores and Netto expected positively to beat him, the numbers being as 2 to 1, and the allies, moreover, counted on Gen. Menna Barreto soon coming up with 2,000 mounted infantry to make victory doubly sure. The 'Tribuna' correspondent, writing on Tuesday, at 2 p.m., says—"All the besieging forces have withdrawn, the Colorados encamping to-night at San Francisco. The hostile vanguards will meet to-night, as Saá's troops are only four leagues off."

Passengers per Era report that on arrival at Fray Bentos on Tuesday evening they met a 'chasque,' just arrived with news that the two armies were hardly half a league asunder, and a decisive battle was expected next day (21st).

Messengers had arrived in Entre Rios with positive information of a large Paraguayan army having crossed Corrientes into Rio Grande, which President Mitre has declared he would regard as a *casus belli*.

The 'Tribuna' incorrectly says that 60 wounded Florists arrived in the Era: there were none.

ROSARIO—ENGAGEMENT WITH THE INDIANS

The Pavon brought the 'Cosmopolita' and 'Ferro-carril' to Tuesday morning. The Duke of San Fernando had arrived *en route* for Chile. The Chief of Police advised the hostile Clubs that if either of them wanted confidence in him, he would petition Government to place the Police force at the disposal of a committee on the day of elections.

The earthworks of the railway are pushing forward, but they have stopped laying down rails, waiting the arrival of sleepers. There are 20 vessels at sea bound for Rosario, and 3 in the river, with materials. The waters of the Carcarañá are now so high that it is impossible to lay down the foundations of the bridge, but the engineers are studying how they can pass materials across the river: the Carcarañá station will be finished this week. There are three encampments on the line between Rosario and Cordoba, and the Carcarañá bridge is shortly expected to arrive from England.

The Emigration Committee is actively working in the interior: Sor Molina of Catamarca has sent a fleece weighing 13 lbs and measuring 9 to 12 inches in length, to be sent to the Dublin Exhibition of 1865. Sor Gordillo is progressing in his highway to Rioja, having established post-houses from Cordoba to Salinas, a distance of 55

leagues. The Cordoba coach brings dates to the 14th inst. The National Guards at Rio Cuarto defeated the Indians, recovering 500 horses, but the savages succeeded in carrying off 1000 head of cattle, and killing or wounding 16 Christians. The agents of the Nat. Government at Rosario are offering 8 gold ounces per head to recruits for the 6th Regiment of cavalry.

Maid servants	$300 to 400
Man cook	400 to 500
Woman cook	300 to 400
Boys from 10 to 15 years	100 to 150

It is notorious the scarcity of hands in domestic service, in which women are generally preferred—

Dressmakers and seamstresses earn	$350
Lar dresses	350

These classes, no matter in what numbers they may come, will have more than enough to do.

TRADESMEN.

Daily wages without meals—

Bricklayers	$40
Carpenters	$40 to 55
Blacksmiths	40 to 45
Shoemakers	40 to 50
Tailors	25 to 30
Labourers	25 to 30

Artizans, of whatever trade, will get work the moment they land; and even without any profession emigrants will immediately get situations with which they will be sure to be contented.

Workmen on the railway earn £40 per day.

On the railways they have a great many hands engaged, but they require some thousands more for the earthworks.

All emigrants, especially those who know mining will get lucrative returns at the mines of San Juan, Mendoza, la Rioja, Catamarca, Jujuy, Cordoba and Salta which are being wrought with most satisfactory results.

ED. NOTE.—The above is the circular of the Emigration committee, and contains many inaccuracies. We rather refer home readers to our notice in Packet Edition "To emigrants."

INTERESTING STATISTICS.

The following is extracted from statistics of the Parisian 'Cour Commerciele:'—

Paris consumes in a year—

Meat	153,000,000f.
Bread	95 do
Wine	195 do
Beer	10 do

Although this last article, 25 years ago, was only known in Paris by its name, and now it is known by 'shop.' If you call for it by any other name, you will be sure to have a long talk with the 'garçon,' who, through his talkativeness, will persuade you that 'chope' is French, and that no French man 'du monde,' knows what 'biére' is. The general consumption in its 3,222 'restaurants,' is 105,000,000f. The 'bonne main,' to the 'garçons,' which has become obligatory, is estimated at 2,000,000f.

In Paris are manufactured every year—

Clothing by fashionable tailors	10,000,000f.
Gloves	15 do
Corsets	8¼ do
Hats	30 do
Boots, shoes, &c,	87 do
Matches	1¼ do
Bleaching	3 do
False teeth manufactured and sold, nearly	2 do
Perfumery	22 do
Fans	5 do
Artificial flowers	28 do
Combs	5 do
Feathers	5¼ do

The celebrated economist, Dr. Engel of Berlin, publishes the following interesting calculations:—

"The English people are the most carnivorous on earth. They consume yearly from 134 to 136 lbs. of meat per head. France, 106 lb.; those living in the cities, and those living in the country only 12 lb. a-head. In Switzerland, the town folks 180 lbs., and the latter and country folks together only 60 lbs. a-head, and in Prussia 76 lbs.'

In October there has been another explosion of a powder-mill in Ochta, near St. Petersburg, in which latter place it occasioned the demolition of 30 houses, the burning of several, and about 80 damaged.

Specie declined sensibly to-day, many holders of specie selling for cash, and employing the paper money at the most extravagant rates of interest.

We hear that some sales of land in this province under the new law have been effected, the proceeds of which will be applied towards the redemption of the paper dollar.

Very large transactions have been effected in exchange on England; the London and River Plate Bank, we understand, has drawn for a large amount at 49½, but the rate is at present much higher, as several bills were drawn to-day at 49¼.

The Wool market could not be duller, and no sales of any importance were effected to-day.

Paper continues scarce and in great demand, to the most serious inconvenience of business of every description.

The news from Paysandú was not regarded as favorable, as great fears are entertained that Flores and Sáa will not fight.

PUBLIC NOTICE.

The undersigned Resident Director of this Company, with power to represent the same in the Argentine Republic, hereby gives notice to all the subscribers thereto in this country, that in accordance with what is prescribed in the Articles of Association, approved by H.E. the President, and duly published in this Capital, he has appointed the twentieth (20th) day of January of the year ensuing, 1865, for the payment of two pounds sterling, or nine dollars and eighty cents, hard money, upon each share subscribed for, which payment is to be made in Buenos Ayres at the registered office of the Company, No. 87 Calle de la Reconquista; and in the other cities and places of the Republic at such offices as the Company's agents there may determine.

No. 4, of the Articles of Association, is as follows, viz.—"The Directors may, from time to time, make such calls upon the members in respect of of all monies unpaid on their shares, as they may think fit; provided always that twenty-one days' notice, at least, be given of each call, and that no call shall exceed £2 per share, or be made at an interval of less than three calendar months after the last preceding call shall have been made, and each member shall be liable to pay the amount of calls so made to the persons: and at the times and places appointed by the Directors."

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare

The bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1863.

P.p. Mauá and Co.

Holloway's Pills.

ENJOYMENT OF LIFE.

When the blood is pure, its circulation perfect, and the nerves in good order, we are well. These Pills possess a marvellous power in securing these great secrets of health by purifying, regulating, and strengthening fluids and solids. Holloway's Pills can be confidently recommended to all persons suffering from disordered digestion or worried by nervous fancies or neuralgic pains. They correct acidity and heartburn, dispel sick headache, quicken the action of the liver, and act as alteratives and gentle aperients. The weak and delicate may take them without fear. Holloway's Pills are eminently serviceable to invalids of irritable constitution, as they raise the action of every organ to its natural standard, and universally exercise a calming and sedative influence.

ELLWOOD'S PATENT AIR CHAMBER HATS

CAUTION.—The Patentees having established the validity of their Patent, in an action tried on the 20th and 21st days of June instant, in the Court of Common Pleas at Westminster, before Lord Chief Justice Erle and a Special Jury, in which Ellwood and another, of No. 21 Great Charlotte-st., Blackfriars Road, in the Borough of Southwark Wholesale Hat Manufacturers, were Plaintiffs; and Christy and others, of No. 35 Gracechurch-street, in the City of London, also Wholesale Hat Manufacturers, were Defendents; and the Jury having by their verdict found that the above-named Defendants had infringed the Plaintiffs' Patent, and that the invention was new in England and in India at the date of the Letters Patent—We, the above named Plaintiffs, do hereby give notice to all Manufacturers, Dealers in, and Sellers of Hats, Caps, or Helmets, that we shall proceed by suit in Chancery against all persons so manufacturing, dealing in, or selling Hats, Caps, or Helmets, constructed on the principle of "Ellwood's Patent Air Chamber Hat," unless the previous consent of the Patentees be obtained, at the same time reserving to ourselves the right of taking proceedings against prior infringers.

TOBACCO de la PALMA,

Is an article entirely different from any other in present use, and solely manufactured by the undersigned at their Steam Tobacco Manufactory.

Containing no Paraguay Tobacco it is free from that peculiar bitterness usually encountered in Tobacco heretofore manufactured in this country for "pipe" use, while its strength is comparable with that of the American Tobacco.

Being nicely cut, it prevents this unnecessary trouble to the consumer, and packed in "tins," of convenient size with adjustable covers, there is less to fear from drying than with other Tobaccos. Two very important considerations, particularly with those residing in the camp. It can, however, be obtained in packages of 1 lb each.

At the manufactory can also be found Tobacco fuerte-colorado for cigarillos, and Tobacco Frances of the best quality at exceedingly low prices.

The "Tobacco de la Palma" can also be purchased at the following well known establishments.

HEALTH FOR THE INVALID BY HOLLOWAY'S PILLS.

LOSS OF APPETITE—LOSS OF STRENGTH—LOSS OF HEALTH.

The marvellous effect of this fine medicine upon the system is such as to immediately rally all the vital functions, the appetite is soon restored, a full flow of spirits quickly follows, the body becomes immensely invigorated with a certainty of restored health: fresh air and a little exercise are necessary to bring about a permanent state of things. Holloway's Pills impart tone and energy to the most delicate constitutions, and in a manner as to astonish all who take them. By their extraordinary virtues they have obtained the largest sale of any medicine in the world.

HEAD, LUNGS, AND STOMACH.

Look to the regularity of the functions of these foundations of vitality. Holloway's Pills restore to order the slightest departure from the proper action, and therefore may be considered as the regulators of the main spring of human life. Apoplexy can always be prevented if the proper action of the bowels be attended to, which this famous medicine never fails to accomplish. Disorders of the head and heart often terminate suddenly and fatally from obstructions in the system, which might generally be prevented by taking small and regular doses of this fine corrective.

FEMALE DISORDERS.

No medicine can be so infallibly relied upon for overcoming all obstructions as these Pills. They never fail to restore a healthy action throughout the system. The printed instructions will enable all to correct the first symptoms of disease, and avert many serious maladies. Holloway's Pills soon change the sickly and sallow complexion, thus renewing the bloom of health. To females entering into womanhood, or at the turn of life, these Pills will be found invaluable. They should be taken two or three times a week as a safeguard against dropsy, headaches, palpitations of the heart, and all nervous affections, so distressing at certain periods.

SICK HEADACHE, INDIGESTION OR FOUL STOMACH, AND DISORDERED LIVER.

In such a deranged state of health the food is decomposed instead of being digested, and proves poisonous rather than nutritious. This derangement can be at once set right by a course of these purifying and digestive Pills, which have acquired for themselves an imperishable fame for the mastery they have constantly exercised over the digestive organs. Holloway's Pills increase the appetite, regulate the liver, repress biliousness, healthily stimulate the kidneys, and move the bowels in a more wholesome and natural manner than any other medicine.

DISORDERS INCIDENTAL TO CHILDREN.

The liver and stomach of children are, from many causes, often out of order, as they are allowed to eat many things that would disagree with their parents, hence their blood becomes impure, and liable to take any disease that is prevalent, and that in the worst form. One Pill, reduced to a powder, and put into a little water, given occasionally to children of twelve months old, and to those of three or four years, three Pills, and to others of seven years of age, four Pills—will always make children look blooming and healthy. Seventy-five out of every hundred do not reach the age of maturity. Holloway's Pills would not only preserve their health, but save the lives of thousands. Many people foolishly think that children only require a little medicine twice a year.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague	Female Irregularities	Rheumatism
Asthma	Fevers of all kinds	Retention of Urine
Bilious Complaints	Fits	Scrofula, or King's Evil
Blotches on the Skin	Gout	Sore throats
Bowel Complaints	Head-ache	Stone and Gravel
Colics	Indigestion	Secondary Symptoms
Constipation of the Bowels	Inflammation	Tic-Douloureux
Consumption	Jaundice	Tumours
Debility	Liver Complaints	Ulcers.
Dropsy	Lumbago	Venereal Affections
Dysentery	Piles	Worms of all kinds
Erysipelas		Weakness from whatever cause.

Sold at the Establishment of Professor Holloway, 244, Strand, (near Temple Bar,) London and by all respectable Druggists and dealers in Medicine throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.
